MEDISENSE CLINICAL LABORATORY REPORT - PAGE 1 OF 5

SECTION 1: COMPLETE BLOOD COUNT & HEMATOLOGY

Diagnostic observations recorded for patient ID MED-99214. Fasting state confirmed.

Parameter values verified within standard clinical deviations for physiological profiling.

SECTION 2: COMPREHENSIVE METABOLIC & LIPID PROFILE

Diagnostic observations recorded for patient ID MED-99214. Fasting state confirmed.

Parameter values verified within standard clinical deviations for physiological profiling.

SECTION 3: HEPATIC FUNCTION & ENZYME PANEL

Diagnostic observations recorded for patient ID MED-99214. Fasting state confirmed.

Parameter values verified within standard clinical deviations for physiological profiling.

SECTION 4: RENAL FUNCTION & ELECTROLYTE EVALUATION

Diagnostic observations recorded for patient ID MED-99214. Fasting state confirmed.

Parameter values verified within standard clinical deviations for physiological profiling.

SECTION 5: ENDOCRINE, THYROID & HbA1c BIOMARKERS

Diagnostic observations recorded for patient ID MED-99214. Fasting state confirmed.

Parameter values verified within standard clinical deviations for physiological profiling.
